

SETTING UP YOUR VERSION 2.0 PLAYING DISKETTE

NOTE: <ENTER> means press the ENTER key.

To set up your STAR FLEET I diskette for playing, please follow these steps (if you are not using PC-DOS 3.0) with your computer up and running.

1. Insert your STAR FLEET I diskette in drive A, and your DOS system diskette in drive B. (If you only have one disk drive, wait until prompted to insert the DOS diskette.)
2. Type SETUP <ENTER>.
3. Follow the instructions on the screen. Your DOS system files will be transferred and the STAR FLEET I diskette will be made "bootable".
4. The STAR FLEET I diskette is now ready to run, but we strongly suggest you make a backup copy first.

BACKING UP YOUR DISKETTE

To make a backup copy, you first need a blank double-sided diskette (or two single-sided diskettes) and follow these steps.

Double-Sided Diskette

1. With a blank diskette in drive B (or when prompted) and your DOS diskette in drive A, type FORMAT B:/S <ENTER>.
2. Replace the DOS diskette in drive A with your STAR FLEET I diskette, type BACKUP <ENTER> and follow the instructions on the screen.

Single-Sided Diskette

1. With a blank single-sided diskette in drive B (or when prompted) and your DOS system diskette in drive A, type FORMAT B:/S <ENTER>.
2. Replace the DOS diskette in drive A with your STAR FLEET I diskette A, type BACKUPSS <ENTER>, and follow the instructions on the screen.
3. Repeat step 1 with another blank diskette, but this time type FORMAT B: <ENTER>.
4. Repeat step 2, but use your STAR FLEET I diskette B.

HOW TO RUN VERSION 2.0

You may want to keep your original STAR FLEET I diskette(s) as backup(s), and use the backup copy to play with. On your STAR FLEET I diskette are two versions of the game, a large memory version, and a small memory version. These versions are identical except that the small memory version has to read the diskette more often. Choose the version to run from the following chart.

<u>COMPUTER</u>	<u>128K RAM</u>	<u>MORE THAN 128K RAM</u>
IBM PC, XT	Large	Large
AT	N/A	Large
IBM PCjr	Small	Large
PC Compatibles	Try large first, if no good, then use small	Large

There are different ways you can start STAR FLEET I depending on your computer configuration.

For All Computers and DOS Systems (Except 3.0)

1. If you have set up your diskette as instructed, insert your STAR FLEET I diskette in disk drive A and either turn the computer on, or do a system reset by pressing <CNTRL> <ALT> simultaneously.
2. When prompted, choose which version you want to play according to the previous chart.

For Computers With More Than 128K RAM or That Use DOS 1.0, 1.1

1. From your normal system and with your STAR FLEET I diskette in the default drive, type:

BLGIN (for the large version) or BEGINS (for the small version)
